### Seeking Community Medical School Advisory Committee Members

We're seeking a few thoughtful, community-minded first-year medical students to serve as members of the Community Medical School Advisory Committee. Community Medical School is a free public lecture series organized by the Larner College of Medicine at UVM and the UVM Medical Center. The lectures take place each semester (spring & fall) in Carpenter Auditorium. The role of Advisory Committee members is to help identify compelling topics and potential faculty speakers for each semester's series. We typically meet in late May to plan the fall series and in early November to plan the spring series. Committee members are sometimes also asked to introduce a speaker and are encouraged to attend the lectures. Learn more about the 20-year-old Community Medical School program [here](#). Interested? Please contact [Michelle Bookless](#), Public Relations & Events Manager, or [Jennifer Nachbur](#), Public Relations Director, in the Medical Communications office.
