

**Share your knowledge with future UVM LCOM students!**

Have you ever wondered what resources would be most helpful for a course? Have you ever found yourself asking upperclassmen for advice on their experiences at LCOM? Lindsey Eastman and Nate Sugiyama (MS4s) are created an academic guidebook for UVM LCOM students and would like to include many students' experiences. Email Lindsey Eastman ([Lindsey.Eastman@med.uvm.edu](mailto:Lindsey.Eastman@med.uvm.edu)) if you are interested in contributing to this project and are willing to write just a few sentences to share your experience with future LCOM students. Working on this project can be a great addition to your resume!

Thank you!

Best,  
Lindsey
