DATE: November 20, 2017
TO: First Year Medical Students
Re: "In Process" immunization status

A Friendly Reminder to students for whom Student Health Services has indicated an "In Process" immunization status:

Please take a moment to check-in with the [Center for Health and Wellbeing](#) in order to confirm that you are aware of what is still needed and by when. You may want to take advantage of your upcoming vacation time to schedule an appointment with your regular provider. To schedule an appointment with the UVM Health Center, call 802/656-3350 (option #1)—be sure to identify yourself as a LCOM student. Your Student Health Services academic history tab in Oasis notes your immunization status and related information.

Best regards,

The Student Services Team
