

## Mayo Clinic Hiring Short-Term Help

Amazing Opportunity Alert!

The Mayo Clinic is urgently hiring graduating fourth-year med students with Epic EHR experience (aka, UVM Class of 2018) for a short-term project to help Mayo docs learn how to use Epic before they implement it this summer.

- This project is from April 29th through May 26th, but may end earlier.
- Compensation is \$60/hour, straight pay, no overtime, with an expected workload of 40-80 hours a week, closer to 70-80hrs/week.
- You'll receive a per diem of \$35/day and will have your flights and hotel paid for.
- The first few days will be orientation/training, and pay rate for these days is \$30/hour.

In summary: if you've got the time and energy, you can make up to \$5000/week and live in a hotel. They are flexible on timing, and will fly you to Vermont for graduation weekend (May 18-20).
