**Subject:** Weekly Wire posting for metabolism module

Hi,

Would you be able to put this posting in the weekly wire for class of 2021?

**Request for notes** - Zach Silberman, class of 2020 here. Did you use the metabolism module for studying for FOCS or NMGI? Did you take any notes on it or did you import it into OneNote? Do you know how to take screenshots or attach files? Do you want to help me make an awesome presentation? If so, please email me ([Zachary.silberman@med.uvm.edu](mailto:Zachary.silberman@med.uvm.edu)) your screenshots or OneNote pages with annotations/notes on the module by **6/4**. I'll be using them in a presentation on curriculum technology integration. Thanks!

Thanks!  
-Zach
