

**Interested in a career in Ob/Gyn?** Recently you had a meeting about choosing a specialty advisor and the lottery for 4<sup>th</sup> year courses. If you are interested in pursuing a career in ObGyn, Elise N. Everett, MD FACOG, ask that you do the following:

- 1) **Please email either [Dr. Everett](#), [Dr. Morris](#), or [Dr. Macafee](#) and request that they be your advisor.** They will accept the request so that you can participate in the lottery. After the holidays, they will then assign you a specialty advisor within the department that is better matched to your interests, needs, etc.
- 2) **There will be a 2 hour group advising session on Monday 12/18 from 4:30-6:30pm, location TBD.** This session will discuss the application process moving forward from January to September. In this session we will discuss courses to take, board scores, honors in foundations, honors in clerkships, letters of recommendation, CV prep, personal statements, etc.
- 3) **Email [Sara Tourville](#) and let her know that you are interested.** This way she can notify you of the location of the advising meeting and if you need to skype in long distance she can help with that as well.

Welcome to the 4<sup>th</sup> year! And welcome to a rewarding career in ObGyn!
