**Subject:** Strategic Planning Committees for FY18 ~ on behalf of Dean Morin

Dear Larner College of Medicine Faculty and Staff,

Last fall, I shared that we were beginning plans for FY18 and addressing the next set of strategic initiatives for the year ahead. We solicited nominations for faculty and staff to serve on two strategic planning committees along with appointed leaders, and again this year I was pleased to have so many of you express an interest in participating in the process.

We have now finalized all three committees and appointed moderators to each (see below), and each has begun their work of gathering information and input in order to make recommendations. Those recommendations will then be shared for additional feedback from the community, and finalized in an action plan in time for FY18 budgeting. We welcome input from faculty and staff, so if you have ideas or information to share with the committees please contact the Moderator or one of the members.

Thank you for your support and I look forward to your engagement in shaping the future of the College.

Rick

Rick Morin

Dean

**Academic Structure & Funding of Basic Science Research: Leader Committee**

Moderator: Ted Winfield, Retired UVM finance and administration leader

- Gregory Holmes, MD, Chair of Neurological Sciences
- Gordon Jensen, MD, PhD, Senior Associate Dean for Research
